

REMARKS

Claim Amendment

Claim 1 has been amended to address the Examiner's remark in the Advisory Action mailed April 15, 2004. Specifically, Claim 1 has been amended to clarify that the T cell antigen receptor (TCR) is selected from a $\alpha\beta$ TCR and the $\gamma\delta$ TCR. Support for this amendment is found in original Claims 2 and 3 and in the specification on page 11, lines 19-22.

Rejections

Applicants respectfully refer to the arguments submitted in the Amendment and Response filed on October 14, 2003, and submit again that Applicants have attempted to address all of the Examiner's concerns as set forth in the July 17 Office Action.

In the third to last paragraph of the response to the rejection under 35 U.S.C. § 103, the citation that was intended to be provided where the response indicates "provide citation here" is (e.g., Boismenu et al., Curr Opin Immunol. 1997 Feb;9(1):57-63).

In the event that the Examiner has any further questions or concerns regarding the claims, he is encouraged to contact the below-named agent at (303) 863-9700.

Respectfully submitted,

SHERIDAN ROSS P.C.
